## GLASS SHOWER CABINS

# Make your bathroom spectacular

Refresh your bathroom and give it a new look with a glass shower cabin.

Is a custom-made shower cabin your dream? We make all shower cabins exactly to the measurements of your bathroom and adapt them to your requirements and needs. We offer a wide range of solutions for every situation - glass shower cabins with sliding or hinged doors, or glass partition walls. We also offer various hardware finishes to match the look with other bathroom elements.

You can choose transparent glass or one of our decorative glasses, and match them with the design of your tiles, floors, or mirrors. We use safety tempered glass. We use safety tempered glass. In order to preserve the glass of your shower cabin, we also recommend Clearshield protection against scale, which facilitates maintenance.

# WALK-IN Shower

## WALK-IN Shower

The simple concept of a walk-in shower fits into any bathroom decor style. A walk-in shower can be spacious, but it can also be adapted to smaller bathrooms. You will have different options for partitioning it from the rest of the bathroom. It is custom-made according to your choice of glass, profiles, and hardware.

In addition to its modern look, a significant advantage of such a shower cabin without a tub is accessibility because there is no difference in floor level. It is extremely easy to clean and maintain. With a walk-in shower, you can have the bathroom of your dreams.

# SWEEP Set

## SWEEP Set

SWEEP is a pivot system for shower cabins with the option of integrating a hydraulic self-closing system. The integrated hydraulic system saves space and enables automatic door closure. The system consists only of the top profile and pivot hardware, allowing for a minimalist design that brings elegance to your space.

Knobs and pull handles come in a standard glossy finish and offer the option to choose custom colors to match the look with other bathroom elements.

FLOW  
Set

## FLOW Set

A sliding system for shower cabins, characterized by simple design and clean aesthetic form. It is characterized by transparency, elegance, and extreme functionality: the distance between the sliding doors and the fixed glass is minimized. The FLOW set has the option of installing a soft stop system that cushions stops when opening or closing the shower cabin.

The hardware is available in two standard surface finishes and offers the option to choose custom colors to match the look with other bathroom elements.
