

## Intaglio Dot

Texture glass is shaped in a kiln to reflect the imprinted shape of the mold it is placed on before heating. Our designers have created a collection inspired by nature, consisting of eight different textures that can be partially transparent, and if combined with a colored background or mirror, they can be more textured or glittery, and the colors even brighter. These designs allow for separation and privacy in many private and commercial applications.

|                     |  |
|---------------------|--|
| max. dimensions:    | 2900 x 1900 mm   |
| thickness:          | 4, 5, 6, 8, 10, 12 mm  |
| safety treatment:   | tempered, laminated, tempered and laminated  |
| glass type:         | low iron, float, blue, bronze, grey, green   |
| processing options: | drilling holes, cnc cutouts, shaping   |
| applications:       | balustrade, cladding, facades, dividers, shower cabins, partitions   |
| cleaning:           | Texture glass can be cleaned with liquid cleaners and paper towels, or soft clothes. Liquid cleaners without ammonia are recommended. Avoid all abrasive cleaning materials. |

REMARK: Due to the manual and unique method of production, certain differences from the shown sample are possible.
