"Less is more." - once again the legendary saying of the modernist architect Ludwig Mies van der Rohe proved to be true. We have explored the possibilities offered by standard transparent and colored glass in combination with different metal coatings. The result is a palette of mirrors in subtle, elegant tones that can find a variety of applications in architectural exteriors and interiors. Inspired by the echoes of the scent of the forest, the infinity of the sky and the depth of the sea, we created a palette of cool green, blue and gray shades. Warm brown tones remind us of the connection with our one and only Earth, while accents of gold and black bring surprise and mystery.

max. dimensions: 3000 x 1200 mm

thickness: 8, 10, 12, 16, 20 mm

safety treatment: laminated, tempered and laminated

processing options: drilling holes, cnc cutouts, shaping

applications: balustrade, cladding, doors, dividers, feature walls, partitions

cleaning: Coloured glass and mirrors can be cleaned with liquid cleaners and paper towels, or soft clothes. Liquid cleaners without ammonia are recommended. Avoid all abrasive cleaning materials.

REMARK: Due to the manual and unique method of production, certain differences from the shown sample are possible.
