

Aquamarine Ombre Frosted Glass

Ombre glass is a subtle yet striking decorative solution for various types of glass surfaces in interior spaces. With a smooth gradient transition from deep dark tones to lighter shades, it creates a unique visual effect that brings sophistication to any space.

Ombre glass introduces gentle tonal shifts — soft neutrals or bold colors — making it ideal for contemporary interiors. It creates atmosphere and visually define spaces through the play of light. Ombre glass can be custom-made to suit the specific needs of a project and design concept.
